## Mastering the Fundamentals of IFRS - the 9 Series

### Overview of the Series

–Most of us studied at a tertiary institution which formed the basis of our knowledge and the foundation for our understanding of financial accounting. Unfortunately we only formally practice very few aspects of financial accounting and IFRS in our daily work, if at all. In order to stay up-to-date with the latest developments, we attend highly technical and focused IFRS CPD Updates, but we fail to reinforce the foundation of fundamental knowledge that we gained at university. The basic concepts of financial accounting are lost in the IFRS enigma.

Atcor and Tabaldi recognise the need to reinforce knowledge foundations, and offer you the opportunity to respond to this need through our Simple & Practical IFRS Refresher Course. We will present the very core of IFRS as simply as and as practically as possible, providing you the opportunity to re-establish your fundamental understanding of the latest financial accounting Standards and Principals.

### Course Outline

This course takes the form of 9 practical sessions, starting in July 2012 and running over the duration of a year. With our every-day examples and your questions answered, you will be able to immediately apply what is learnt in each session to your work place.

Session 1: Framework and IAS1 (including other comprehensive income) – 24th August 2012

Session 2: Accounting for fixed assets (PPE, Investment Property, Intangible Assets, etc) – 14th September 2012

Session 3: Revenue and Provisions, Contingent assets and liabilities – 19th October 2012

Session 4: Accounting for income taxes - 9th November 2012

Session 5: Financial Instruments – 30th November 2012

Session 6: Group accounting – consolidation and equity accounting – 25th January 2013

Session 7: IFRS3 business combinations – 22nd February 2013

Session 8: Lease accounting – 15th March 2013

Session 9: Employee benefits & Share based payments (IFRS2) – 12th April 2013

## About the Presenters: Tabaldi Accounting Intelligence

### Charles Forbes CA (SA)

Charles has over 15 years post articles experience in providing academic and professional training and advisory in the field of financial accounting. He is a well-respected presenter and is in high demand for his energetic and engaging presentation style on a topic where he is renowned as an industry expert in the area of financial accounting. Charles has a gift of making complex standards easy to understand by doing the underlying journal entries and using everyday examples.

Here is a YouTube clip of Charles lecturing IAS 12 – income taxes and explaining Deferred Tax, a traditionally complicated standard.

### Richard Starkey CA (SA)

Richard has a varied background of practical experience including IFRS consultations and opinions, corporate finance analytics and exposure to private equity and commodity based transactions. Richard has recently consulted and provided technical accounting opinions on such assignments such as the IFRS structuring of a large gaming operation, drafting of Alt-X listed companies annual financial statements, to assisting in audit software development relating to IFRS and IFRS for SME compliance.
